# Crating & Shipping

- All Taxidermy/expedite orders will get a personal crate made for fit the order. This leaves no room for extra volume and unnecessary cost.
- All crates are made from strong and robust timber.
- All the timber used meets export requirements and comes with timber deceleration.
- We can send your trophy to most parts of the globe. We use a great freight forwarder Gvi logistics, who continue to make their process simple and easy.
- All crates will be quotes in air and sea freight giving you the option that suits you best.
- Please look at the attached estimated prices for recent crates to the most common ports.

*Our custom built crates are made to order*
