ALL PRICING EXCL. TAXES (GST)

Please note:

- All life size prices are priced on forms we have in that position and are excluding habitat bases.
- All of our habitats are made with high quality rock casting panels (competition quality).
- All altered custom work is charged at \$130 per hour.
- All repairs are charged at \$95 per hour.

TERMS AND CONDITIONS

- All taxidermy requires a 50% deposit once trophies are confirmed via email. The remaining balance is due on completion with crating and freight charges added.
- All prices are subject to change – prices are estimated for mature size trophies/moulds available.
- All trophy consignments are to be freighted through our freight forwarding company (NO exceptions).
- All trophies are crated in solid processed timber crates (meeting exporting expectations worldwide).
- All crates freighted are quoted and charged to the closest port of entry possible to your physical address only. Any additional freight/courier charges from then on are payable by client.
- All customs charges received are separate from our service and will be paid direct to them.

INSURANCE

Our insurance will only cover the full cost of your taxidermy work stated on invoice, as well as the replacement of your hides. It will cover the cost of your completed mounted trophies from the moment they're received on the premises to the point of your port of entry.

Please note: insurance does NOT cover the cost of your hunt or value of your antlers. If you would like your trophies insured, please take the appropriate steps to personally insure them yourself.

Our work shop has security alarms and cameras operating 24/7. Our staff are present at the workshop 7-days a week.

U.S CLIENTS ONLY

All shipments of game trophies entering the USA must pass inspection by the department of U.S Fish and Wildlife at an approved U.S F & W location (also known as the port of entry).

CUSTOMS BROKERS

All trophies being freighted will require clearance upon arrival. If you are unfamiliar with this process, we advise that you engage with a customs broker in your resident country to help with the process.
